About Dr Shuff

Dr Shuff is designed to support musicians by providing AI-assisted feedback on musical performances.

The app is intended to encourage musical reflection, practice, and improvement across a wide range of instruments, learner stages, and musical styles.

Educational Purpose

Dr Shuff is an educational tool.

While every effort is made to provide helpful and meaningful feedback, the app does not replace the guidance of a qualified music teacher, examiner, or professional musician.

Users should use their own judgement when interpreting feedback and making musical decisions.

Intellectual Property

The Dr Shuff application, its design, software, branding, text, graphics, and original content are the intellectual property of Dr James Shufflebotham unless otherwise stated.

You retain ownership of any recordings that you create or upload using the app.

Artificial Intelligence

Dr Shuff uses artificial intelligence to generate educational musical feedback.

Although every effort is made to provide accurate and helpful guidance, AI-generated feedback may not always be complete or correct and should be considered alongside your own musical judgement.
